FULVIC ACID, PROBIOTIC & ELECTROLYTE SUPPLEMENT WITH SELENIUM

IMMUNOVITE is a water soluble gel that assists in treatment of symptoms associated with stress, digestive constraints, dehydration, deviant behaviour and adaption challenges. The combination of *Bacillus amyloliquefaciens* as probiotic with fulvic acid provides functioning support to the gastrointestinal tract with its healing properties.

BENEFITS OF FULVIC ACID

- Forms a film on gastrointestinal mucosa[5,6]
- Anti-inflammatory and anti-microbial properties[7]
- Aids Feed Conversion Ratio (FCR) and Average Daily Gain[8]
- Anti-oxidant

BENEFITS OF *BACILLUS AMYLOLIQUIFACIENS*

- Helps to boost the efficiency of absorption and digestion of nutrients[1]
- Antibacterial activity against pathogenic bacteria[2,3,4]
- Studies have established that dietary supplementation of *B. amyloliquefaciens* boosts intestinal microflora, gut morphology and nutrient digestibility, thereby enhancing growth rate and feed efficiency[2,3,4]

WATER APPLICATION

One day application: 100 mℓ / 100 ℓ of water OR 3 – 5 day applications: 35 mℓ / 100 ℓ of water.

IMMUNOVITE is water soluble for easy administration via drinker lines.
