#### FOR ANIMAL USE ONLY

Reg. No. G0169 (Act 36/1947) Namibia Reg. No. V05/18.1.1/452 NS0

#### **INDICATIONS**

**Panacur® 4%** is a roundworm remedy for pigs and cattle as well as a roundworm and milk tapeworm remedy for sheep and goats.

Targets: nodular worm, brown stomach worm and wireworm.

## COMPOSITION

Contains: Fenbendazole 4,0 % m/m

\* Benzimidazole

#### STORAGE

Store in a cool place.

#### **WARNINGS**

- **Withdrawal period:** Do not slaughter animals for human consumption within 7 days of last treatment.
- Do not mix with any unspecified substance.
- Sheep must be inoculated against pulpy kidney (enterotoxaemia).
- Dispose of empty containers according to local waste disposal regulations and do not reuse for any other purpose.
- KEEP OUT OF REACH OF CHILDREN, UNINFORMED PERSONS AND ANIMALS.
- Although this remedy has been extensively tested under a large variety of conditions, failure thereof may ensue as a result of a wide range of reasons. If this is suspected, seek veterinary advice and notify the registration holder.

## **DIRECTIONS FOR USE - USE ONLY AS DIRECTED**

The **Panacur® 4%** powder is incorporated directly into the feed at the recommended dosage rate as per the dosage instructions.

### DOSAGE AND ADMINISTRATION

Cattle, Pigs, Sheep and Goats - Roundworm

5 mg active ingredient/kg body mass i.e. 1,25 g **Panacur® 4%** powder/10 kg body mass.

## Sheep and Goats - Milk tapeworm

10 mg active ingredient/kg body mass i.e. 2,50 g Panacur® 4% powder/10 kg body mass.

## **DOSAGE TABLE**

Body mass (kg)	Double the dose to treat milk tapeworm infestation in sheep/goats	
	Dose (per gram Panacur <sup>®</sup> 4% powder) cattle, pigs, sheep and goats	
10	1,25	
20	2,50	
50	6,25
