

Dear Pet Owner,

Having a dog or a cat with diabetes is scary but it can be managed if you are committed to your pet.

November is diabetes awareness month. MSD Animal Health have 2 characters, Sugar and Spike, that help pet owners understand pet diabetes, in addition they have a FREE Pet Tracker app which will help you monitor your pet's diabetes condition, it can also help you send the information straight back to your vet, which is helpful in monitoring their condition.

The Pet Tracker app helps you track their water intake, food consumption, signs of illness, exercise, body condition, weight, lethargy level and happiness level.

Look out for Sugar and Spike on our social media pages to learn more about diabetes in pets.

Download it now and complete the [Google form](#) to enter to stand a chance to #win a luxurious Le Creuset Rectangular Dish with Platter Lid!

T&Cs apply
