

S4 **Mometamax[®] Ultra**
THE UNIQUE, SINGLE-DOSE OTITIS EXTERNA TREATMENT YOU CAN COUNT ON

**One Dose.
Healthy Ears.
Happy Dog.**

OTITIS EXTERNA TREATMENT PLAN

Your veterinarian has cleaned your dog's ears and applied MOMETAMAX[®] ULTRA. Over the next 4 weeks this is working to treat the infection and restore your dog's ear health.

During this time there is no need for you to clean the ear(s) or apply any other medications unless advised by your veterinarian.

It's important to keep your dog's ear canals dry - so it's also best not to bath or allow your dog to swim during this time.

Your veterinarian may request a follow up appointment to review your dog's progress.
